Mental Health First Aid Training

This conference is the sixth series of Muslim
Mental Health Conferences. The goals of the
conference are:

- Improving cultural competency using tripartite framework of attitudes, knowledge and skills in treating Muslim population with mental illness.
- Latest research, innovative ideas and treatment approaches to provide better and culturally appropriate mental health care to the Muslim patient populations
- Continued training of Imams, Chaplains, community leaders and teachers as mental health first aid.
- A panel discussion on the state of Muslim Mental Health. Promoting access to mental health care, challenging stigmas, identify resources and eliminating barriers to seeking services
